

IPPHEAE: PAST, PRESENT AND FUTURE

Irene Glendinning

Abstract:

Almost 300,000 Euros of European Union funding was invested in the project *Impact of Policies for Plagiarism in Higher Education Across Europe* (IPPHEAE) that was conducted between 2010 and 2013. Was this money well spent? What impact did the project have on national and institutional policies for academic dishonesty and plagiarism? What evidence is there that policies for academic integrity in higher education in different parts of Europe are fit for purpose? How can institutions be sure their policies are effective and being applied consistently? What more needs to be done? The presentation will attempt to answer all these questions.
