

The secret of success

Enter what you want to calculate or know about:

what is the secret of success in mathematics

[Examples](#) [Random](#)

Input interpretation:

What is the secret of success in mathematics?

Result:

Plagiarize!

Plagiarize,
Let no one else's work evade your eyes,
Remember why the good Lord made your eyes,
So don't shade your eyes,
But plagiarize, plagiarize, plagiarize -
Only be sure always to call it, please, "research".

(according to the song *Lobachevsky* by Tom Lehrer. Don't plagiarize. It's a joke.)

Jude & Debbie Debating

How this session is planned

‘What drives you to take the approach you do with plagiarism?’ [10 minutes x 2]

‘What are the negative consequences or danger of the other’s approach?’ [7 min x 2]

Topics worth debating:

- Intent – what is it? How to prove it? what next?
- Being a lone voice or part of a group?
- Making change, **real** change, happen: how?
- What are we really dealing with – plagiarism, academic misconduct, etc.? At what point do we begin to call it plagiarism?
