

Peer Reviewer Evaluation Rubric

Suggested citation:

Razi, S. (2023). *Peer reviewer evaluation rubric*. Working document.

Please rate the quality of the feedback that you received from your peers for your writing assignment. Please consider how the feedback that you received contributed to you revising your paper regarding the five main aspects of idea presentation, citation, academic writing style, grammar, and mechanics. If your answer is “no/little contribution”, this means that you either received no feedback or the feedback that you received did not contribute you to revising your assignment. Thank you in advance for your contribution.
